INTERNATIONAL ELECTROTECHNICAL COMMISSION

INTERNATIONAL ELECTROTECHNICAL COMMISSION SCHEME FOR CERTIFICATION TO STANDARDS IN EXPLOSIVE ATMOSPHERES (IECEX SCHEME)

TITLE: ATEX/IECEX Quality Assessment Report for Manufacturers.

This document provides an IECEx QAR and ATEX QA Notification Report format for assessment of manufacturers. Guidance for assessment is provided in OD-025 and requirements for preparation of QAR are given in OD-009.

This Document provides a standardised Report format for the recording of assessments of Ex Manufacturers for compliance with the requirements of the following:

ISO/IEC 80079-34 Edition 2.0 2018-08 – Application of Quality Systems for equipment manufacture.

IECEX Operational Document OD 025 – Guidelines for the management of assessment/surveillance of quality management systems in accordance with the IECEx Scheme.

This QAR is applicable to initial assessment, any necessary follow-up assessments, and special assessment of manufacturers.

While primarily intended for use by auditors of certified product manufacturers, it may also be used by manufacturers themselves or when conducting internal assessments for compliance with the relevant requirements.

It is not valid until signed by SGS Baseefa and this is only done when any nonconformities have been cleared. Once completed, in order to be valid for IECEx purposes, this QAR must be registered on the IECEx "On-Line" Certificate of Conformity website system. Refer to OD 011 Part 2 for guidance.

SGS Baseefa Limited
